
EXPERIENCE

- **Dynatrace** Toronto, ON
Principle Solutions Engineer - Logs *Sep 2024 - Present*
 - **Logs Specialization:** Led complex, high-value opportunities to prove Dynatrace Logs solutions for Global and Strategic customers.
 - **Sales Wins:** Partnered with Sales & Engineering leadership to influence technical direction and deal successes.
 - **Customer Partnership:** Advised customer executives and facilitated strategy workshops to accelerate platform adoption and usage.
 - **Team Coaching:** Mentored and onboarded new members of the Logs strike team, accelerating their productivity and technical proficiency through hands-on training.
 - **Field Enablement:** Enabled Solution engineers by coaching and developing Logs demo artifacts for global use.
 - **Product Influence:** Actively collaborated with Product Management to relay customer feedback and guide product improvements.
 - **Brand Advocacy:** Strengthened Dynatrace brand awareness by publishing technical blogs and representing Logs at Perform Conference, tech talks, and webinars.
- **BMO Bank of Montreal** Toronto, ON
Senior Engineering Manager, SRE *Jul 2022 - Sep 2024*
 - **Finance Management:** Oversaw \$2M operational budget, ensuring efficient & strategic resource utilization.
 - **Pioneering SRE:** Led a team of 9 SREs and DevOps engineers to design and implement an SRE framework centered on Config as Code (CaC) and end-to-end Observability.
 - **Observability Engineering:** Deployed and enabled observability using Dynatrace & ELK on ~30+ Commercial banking Level 1/2 critical applications.
 - **Build Optimization:** Cut environment setup time by 80% (to 2.5 hrs) through CaC based automation.
- **Manulife** Waterloo, ON
Senior Site Reliability Engineer *Sep 2021 - Jul 2022*
 - **Team Leadership:** Led 8 Support Analysts to improve reliability through proactive support and monitoring.
 - **Monitoring Setup:** Deployed APM and synthetic monitoring across 22+ apps, cutting down MTTx by ~60%.
 - **Training:** Trained Manulife University cohorts on Dynatrace & New Relic monitoring.
- **RBC Royal Bank of Canada** Toronto, ON
Senior Technical Systems Analyst *Jan 2016 - Sep 2021*
 - **Incident Management:** Led resolution of critical incidents, minimizing business disruption and ensuring operational continuity.
 - **Optimization:** Improved app performance and designed ServiceNow workflows, saving \$270K+/yr.
 - **Automation Delivery:** Built RPA/NLP/OCR-based solutions, generating \$500K+ in savings.

SKILLS

Solution Architect, AWS, SRE, FinOps, Kubernetes, Observability, Chaos Engineering, DevOps, CI/CD, API
